Signage is an ever evolving medium for capturing the attention of your audience. That's why beMatrix has incorporated illuminated signage into our system!

beMatrix is on the cutting edge of lightbox solutions for your designs. We offer lightboxes of various sizes giving you nearly **limitless customization options.**

Lightbox

No boundaries to your creativity

There is no end to the creative ways in which you can use our lightboxes. From a perfectly aligned lightbox and frame, to a unique combination of a lightboxes for a fabulous and **eye-catching 3D effect**. You can also easily swap graphics or create freestanding signage!

Single or double sided lightbox

The sideLED lightboxes are **easy to mount** onto the beMatrix frame system.

Single sided		Double sided
		
62S sideLED lightbox To ensure the stability of the frame we advise a maximum dimension of 992 × 2976 mm. By additional support frames, your design can go up to 1488 × 2976 mm.	124S sideLED lightbox	186D sideLED lightbox
		
		124D sideLED lightbox

beTV™
offers you the
high resolution,
flexibility, &
convenience
of a monitor,
with the ease of the
beMatrix
system.

Variety of sizes

Our lightboxes are available in a wide variety of sizes that can be customized to your needs. Whether your creating a standalone display, a hanging ceiling display, or incorporating a lightbox directly into your build, the only limit is your imagination.

Our frames can be customized to fit your needs, but our most common lightbox sizes are:

3' x 8'	8' x 8'	8' x 10'	8' x 20'

The 8 beMatrix principles

Quality guaranteed

All beMatrix frames are manufactured in-house, so we are in control of every step of the production process. Continuous optimization and innovation initiatives ensure the system always complies with the market's demands.

Top finishing

The beMatrix system comes with a large range of tools and accessories to finish your exhibit or event exactly the way you want. With infills, you can even hide the entire frame system so it becomes invisible to the eye. Thanks to our 'seamless' concept, not one seam will be noticeable.

Freedom to design

A design built with beMatrix combines the benefits of a modular system with the possibilities of a made-to-measure solutions. Almost any shape, contour and construction is possible and can easily be created. One single frame allows you to create all different kinds of design concepts.

Lightweight

The aluminum frame system is lightweight, ergonomic and eco-friendly. With our system, your transportation costs and CO2 emissions remain low.

Fast

Assembly and disassembly of the beMatrix system takes hardly any time. Its lightweight, simplicity and tool free assembly save loads of time, leaving you space to focus on the finishing details of your design.

Long life cycle

The system is extremely sturdy, making it endlessly reusable. Wear and tear won't shorten its life cycle, since the frame is not visible to the eye once the entire design is set up.

Ecologically sound

Because of its low weight, long life cycle and modular character, the beMatrix frame system is the eco-friendliest system today. Moreover, it is made out of untreated aluminum and is 100% recyclable and reusable without any quality losses.

be strong  **be stylish**
be anything.
